

IVAN CHEPURIN

Web developer

<https://gvguy.com/>
ivan@chepurin.org

📍 Segovia, Spain / remote worldwide

✨ Skills ✨

Javascript (ES6+)

Typescript

Vue.js

Svelte

React

CSS / SCSS

Vite / Webpack / Rollup

Node.js

REST API / Websockets

Nuxt / Astro

✨ Experience ✨

SidusHeroes 2021–2025

- Developed and maintained the project's main site and products
- Set up and optimized various apps' frontend architecture
- Developed applications from free-form concepts and Figma designs to fully functional SPA's
- Created cross-project frontend libraries – including setup of custom development environments and writing technical documentation
- Discussed upcoming features with backend developers, shaping the response schemas and API endpoints, and later consuming those API's
- Reviewed code, consulted and coordinated teammates

Atmosfera 2019–2022

- Created a schedule app for internal studio management
- Developed automation scripts interacting w/ third-party API's

- Authored and maintained dozens of pro audio workflow scripts
- Built a few Kyma virtual instruments

Before all that I was doing some unregular **freelance work** 2013–2020

- Various landing & personal pages

✨ Author of ✨

- thru-space – a JS library to create a space-travel effect on a canvas
- balance-timer – a timer app to balance productivity and rest
